

INVITATION

British Junior Cardiologists' Association

BJCA Focus: Heart Rhythm

Saturday 16th September 2017, Radisson Blu Portman Hotel, London

The BJCA introduces the 2nd "BJCA Focus" meeting.

These meetings focus on areas of the cardiology curriculum in which trainees find difficulty accessing training and should be a great way to address deficiencies before completing your cardiology training. The meeting this year focuses again on Heart Rhythm and will cover the relevant parts of the UK and ESC core curriculum in cardiology. By the end of the meeting we hope that all attendees will be adequately equipped to hold their own in a conversation with any of their electrophysiology colleagues! This meeting is open to all full BJCA members.

This meeting will be especially useful for senior registrars and is free to attend.

AGENDA

Saturday 16th September 2017

- 09:30 Registration
- 10:00 Opening remarks
- 10:05 Complex situations in the management of AF
- 10:50 The non-electrophysiologist's guide to ablation
