

# INVITATION

British Junior Cardiologists' Association

## BJCA Focus: Heart Rhythm

Saturday 19th November 2016, Radisson Blu Portman Hotel, London

### The BJCA introduces the inaugural "BJCA Focus" meeting.

These meetings focus on areas of the cardiology curriculum trainees find difficulty accessing training and should be a great way to address deficiencies before completing your cardiology training. Our inaugural meeting focuses on Heart Rhythm and will cover the relevant parts of the UK and ESC core curriculum in cardiology. By the end of the meeting we hope that all attendees will be adequately equipped to hold their own in a conversation with any of their electrophysiology colleagues! This meeting is open to all full BJCA members.

This meeting will be especially useful for senior registrars and is free to attend.

#### AGENDA

Saturday 19th November 2016

- 10:00 Registration
- 10:15 Opening remarks
- 10:30 The non-electrophysiologist's guide to ablation
- 11:30 Anticoagulation and cardiovascular procedures: controversies and evidence
- 12:00 Lunch
- 12:45 Advanced ECG Interpretation – Focus on VT & Inherited Cardiac Conditions
- 13:30 Common pitfalls in the management of SVTs
- 14:15 State of the art in AF management: Reviewing the role of medication, ablation, appendage closure, and weight loss
- 15:00 Tea and coffee break
- 15:25 Pacing & device jargon made simple
- 16:10 The NOAC / warfarin lucky dip – which agent for which patient?
- 16:55 Closing remarks

Agenda subject to change. The most up to date agenda will be available on the meeting website.

Please note, a £100 deposit will be required to secure your place, which will be refunded to you following the meeting. Places at other BJCA events were fully booked within 48 hours, so please register early to avoid disappointment!
