CARDIOLOGISTS'  
ASSOCIATION

31<sup>st</sup> July 2017

## British Junior Cardiologists' Association – National Presentation Abstract Submission

Dear all,

The new BJCA Starter Committee is pleased to announce its inaugural national cardiology taster day. Pre-registrar level trainees keen on a potential career in cardiology are invited to submit abstracts to this conference. Select abstracts will be selected for oral presentation at this national conference.

Submissions are welcomed in any of the following areas:

1. Audit/QIP
2. Original Research
3. Images in cardiovascular medicine

Abstracts should be no longer than 400 words and should be structured as introduction, methods, results, and conclusion (except images in cardiovascular medicine). Those submitting image entries should include a high-resolution version of the image. Entries must be received at [bjca@bcs.com](mailto:bjca@bcs.com) by **17:00 Friday 25<sup>th</sup> August 2017**. Entries will be reviewed and scored anonymously, though please include your full name and place of work on your submission email for notification purposes.

Further event details available here: <https://bjcataster.eventbrite.co.uk/>

For queries please contact the above address. We are really looking forward to receiving what will no doubt be a high standard of entries.

Good luck!

Very best wishes,

**The BJCA Starter Committee**

**Dr Chris Allen**  
Chair, BJCA Starter Committee

**Dr Jubin Joseph**  
President, BJCA
