

Essentials of Radial Access

Wednesday 15th August 2012

University Hospital of North Staffordshire

Practical course on radial angiography & PCI
Live cases

Course Organisers: Sanjay Sastry,
Doug Fraser and Jim Nolan

The total cost for this meeting has been fully
funded by contributions from:

Welcome

Dear Colleagues,

The successful North Staffordshire radial course has been expanded into a basics course followed by an advanced course later in the year. The basics course, 'Essentials of Radial Access', is aimed at operators with limited transradial angiography and / or PCI experience as well as more experienced operators who wish to learn more about the fundamentals of radial access. The focus will be on practical information including "tips and tricks" from experienced radial operators. This will be backed up by detailed discussions around live cases with full audience participation in these discussions at all times.

This year we will providing a large number of supervised angiography simulator sessions so that delegates can learn by performing procedures with an experienced radial operator.

Registration is free and numbers are limited. To book your place, please complete the registration form and return to Millbrook Medical Conferences or email Millbrook at events@millbrookconferences.co.uk.

Sanjay Sastry
Doug Fraser
Jim Nolan

Course Organisers:

Sanjay Sastry
Doug Fraser
Jim Nolan

Faculty

Sagar Doshi	Birmingham Queen Elizabeth Hospital
Doug Fraser	Manchester Royal Infirmary
Beth Freestone	Birmingham Heartlands Hospital
Scot Garg	Blackpool Victoria Hospital
Mamas Mamas	Manchester Royal Infirmary
Jim Nolan	University Hospital of North Staffordshire
Karim Ratib	University Hospital of North Staffordshire
Sanjay Sastry	Royal Bolton Hospital

Programme

Essentials of Radial Access

Wednesday 15th August 2012

08.45	Registration	
09.10	Introduction	
09.15	Access site overview	Doug Fraser
09.45	Getting started: lab setup, patient selection, equipment	Beth Freestone
10.15	Live case 1 – Diagnostic angiogram	
10.45	Coffee Angiography and Radial Puncture Simulators	
11.25	Getting to the coronaries: radial cannulation, coronary cannulation, arm anomalies	Mamas Mamas
11.55	Radiation issues	Jim Nolan
12.25	Live case 2 – Diagnostic angiogram/graft restudy	
13.00	Lunch PCI Simulators	
14.00	Coronary cannulation, catheter selection, simple PCI	Scot Garg
14.30	Live case 3 – Simple PCI	
15.00	Radial occlusion, haemostasis, aftercare	Sagar Doshi
15.30	Coffee	
15.40	Live case 4 – Complex PCI	
16.10	PCI Simulators	
17.10	End
