4TH ANNUAL BJCA CONFERENCE

Dear SpR

The British Junior Cardiologists Association is growing every year and we hope you will be able to join us for our fourth annual conference on 17–18 November 2006.

We are fortunate that AstraZeneca, sanofi-aventis and Bristol-Myers Squibb have provided funding via an unrestricted educational grant for this year's meeting.

We have developed the programme based on all the feedback received last year and hope that you will see many of your ideas have been incorporated. Once again we will make good use of the voting keypads throughout the sessions

I look forward to seeing many of you in November. Places are limited so please register your interest as soon as possible by emailing our meeting secretariat: bjca@leapfrogmedical.com or calling James Bellew on 01293 827164. You will then need to complete a booking form to reserve your place at the meeting.

Yours sincerely

Saul Myerson
BJCA PRESIDENT
