Treasurer's Report for the period 1/4/16 - 31/3/17

As in previous years, the main item of expenditure relates to Council members' and Trustees' expenses of attending meetings and the BCS Conference in June. The split between those costs and the remaining outgoings is approximately 79% / 21%.

Total costs relating to the 2016 BCS Conference are £3,177.10, including dinner and Bursary Award.

These figures reflect the activities of CCP (UK)'s members, including planning for the Conference and maintaining the cardiovascular agenda through the patient perspective.

Face-to-face discussion of relevant issues, and formulation of agreed approaches, is generally more effective than telephone conference calls which may be less successful if they involve more than a small number of participants. Quarterly meetings would therefore continue to be the most appropriate means of establishing and promoting the CCP (UK) agenda.

For the 2017-18 financial year and beyond, funding and meeting location(s) will be largely dependent on arrangements still to be finalized and agreed with BHF.

R Fitzgerald, Treasurer
